PREMIER DENTAL ANESTHESIOLOGY NEWS TODAY

Here We Grow!

On the brink of our sixth anniversary, we have just acquired space in Columbia, Missouri to meet our growing demands for service in the Western part of the state. We will be able to more efficiently meet the needs of Central and West Missouri by deploying teams from this new satellite location.

In this month of Thanks, we are grateful for the opportunity to help your patients receive the anesthesia care they need for a successful dental procedure. We are now traveling to almost every corner of the state and treating patients of all income levels. In fact, several commercial health carriers are now allowing for Anesthesia services in the dental office for adults; please notify your patients and have them check with their insurer.

If you would like to see how easy it is for us to anesthetize your patient so that you can effortlessly treat them; please contact us for a DVD of an actual case. For up to the minute information on our practice, find us on Facebook: [Facebook.com/Premier.Dental.Anesthesiology](https://www.facebook.com/Premier.Dental.Anesthesiology).
