PREMIER DENTAL ANESTHESIOLOGY NEWS TODAY

Accredited by the

ACCREDITATION ASSOCIATION
for AMBULATORY HEALTH CARE, INC.

Recently, we received our accreditation from the Accreditation Association for Ambulatory Health Care, Inc. (AAAHC) Founded in 1979, AAAHC is a private, non-profit organization that is the leader in developing standards to advance and promote patient safety, quality and value for ambulatory health care through peer-based accreditation processes, education and research.

Yes, that is a lot to digest. However, in short, the AAAHC sets the standards for safety and value and through a lengthy and rigorous process and we have met those standards. Additionally, we are the first dental program of our kind to have earned such accreditation!

So, what does that mean for you? It means that the leader in ambulatory safety and value has recognized us, too, as a leader. Our “belt and suspenders” approach to your patient’s safety comes first. Because our physicians are in the OR when they are not in the dental offices, they know exactly how to outfit your dental operator with the correct mobile equipment. This ensures that any case in your office will run as smoothly as it does in any hospital OR.

We also offer a valuable service to both you and your patient by traveling to you. Without a facility fee, the cost to your patient and their health insurance is dramatically reduced. In addition to that, you are working in the comfort of your own office and completing more cases in one day than you normally would in the hospital. It’s no secret that this efficiency increases your margins.
