## Premier Dental Anesthesiology News

There is excitement in the air as Spring is right around the corner. Everything seems to have begun to change and grow in the last few weeks and that is also true for us here at Premier Dental Anesthesiology. Currently, we have six dental groups signed up to take our state approved Sedation Monitoring Course. And, recently we signed our first oral surgeon! We are thrilled to have the opportunity to work with so many talented practices. It is apparent that there is more and more of a demand for general anesthesia/deep sedation in the dental community and being able to make your patients safely comfortable while you work is what it is all about.

---

### Survey Says!

Recently, we sent out a short survey asking your opinion on a centralized operatory where you would have the opportunity to work on your patient who needed our services outside of your office. We are considering opening a central dental surgery center in Chesterfield Valley and are wondering if you would make use of the facility. If you have not yet sent back your bright yellow postcard, or never received one at all, and would like to weigh in on this subject, we'd love to hear from you! Please send all questions/comments/suggestions to [cdugan@waai.net](mailto:cdugan@waai.net).

---

### Take a break...

Beginning with this issue, we would like to tone things down a bit in this section and give you a funny dental quote, cartoon or maybe perhaps an inspirational saying. If you have something you'd like to submit, please send it our way and we will of course mention your name.

**“Happiness is your dentist telling you it won't hurt and then having him catch his hand in the drill.”**

**-Johnny Carson**
