

“Safe anesthesia provided by a board-certified anesthesiologist for your child’s dental procedure”

Premier Dental Anesthesiology works with your dentist in his or her own office to provide safe sedation during dental procedures. Our anesthesiologists each possess greater than 15 years of experience and have sub-specialty training in various areas including: pediatrics, echocardiography, critical care medicine and pain management.

Since January, Premier Dental Anesthesiology has completed over 100 pediatric anesthetics including many special needs children in dental offices.

Contact us to locate a pediatric dentist near you!

Missouri State Law requires medical insurance companies to cover our services for

- **children under the age of five**
- **a person who is severely disabled**
- **or someone who has a medical or behavioral condition which requires general anesthesia when dental care is provided**
